* Temporary Collection order

** Information not available at press time due to large number of timberland appeals.

- These tables also show the collection percentage rate determined as a result of a state audit for these applicable years, and the application of that percentage rate in calculating the potential tax loss.
- These figures do not include the amount of delinquent tax at the time of the audit which may have been collected since that time.
- The figures do include adjustments as a result of settlement of appeals, additional homestead exemptions, personal property audits, correction of factual errors, unreturned property, and those accounts that are written off (typically personal property where there is no longer any property on which to levy).
